Student Remarks
Great course! Assignments could use a little less hand holding, project could use a little more. Quiz scheduling is hectic though - and having Quizzes + Endsem + Project + Homeworks, is a bit heavy for the course, in general we expect 3 components as students, or if there are 4 then one must be completely guided (Tutorials) - but if Homework is turned into that (i.e. more hand holding and more homeworks), then we wont have any regular assignment work for the class. Pls adapt Quizzes into HWs
??????
excellent course, totally practical and well executed even during a pandemic
very good course, learned a lot
The content was a lot& overwhelming, it was a nice experience, though I cannot guarantee you how much the coding part I remember, but the theory, mech, sensing & data visualization part I liked very much
good course learnt a lot
