Student Remarks
Course was very well taught, prof is very enthusiastic about the topics. Lecture wiki is very well structured.
Sir teaches Concepts very well. student friendly prof. he puts tutorial before quizzes to help students learn better. also gives some 1mark questions for scoring. he even demonstrates lab topics in class for us. gives enough time for the assignments. only 1 TA tutorial TA session happened ig. if more there, Would be good. thank you Sir, I little motivated to explore in the domain of networks.
Ayon sir did his best with the course and same for all the TA, really had a great time studying from sir as a BS student coming to campus to study electives, I am glad I selected the right course, Ayon sir not explains best but even takes doubt after classes.
Sir made the concepts easier and made sure that we had all the knowledge at same time kept the pace which suited us the best . I am very thankful to him for his special interest I am sure this course had done my interview prep for placements
conduction of viva for 2nd assignment is bad. it is scheduled on a long weekend's sunday, TA just told at the end moment and said whoever don't show up will be given 0. many students had to cancel their tickets which they had already booked. They could have shown some leniency.
maybe the quizzes can be graded better instead of first having some incorrect mark deductions then rectifying on google forms
.
good course
thank you sir, loved your course. confident that Ill win the challenge of getting S/A grade :)
