Student Remarks
boring course was interesting only because of the professor. the objective was clear throughout and learning was great.
Sir is quite student friendly!
Sir is quite student friendly!
I think it will be really good to create some sample codes that might help the students to get along LLVM easily. The official doc of llvm is not so welcoming for beginners. If llvm examples can be provided, more assignments could be added to the course reducing the weightage of individual assignments. The assignment logics were fairly straightforward but they were too time consuming just because of the difficulty in getting along with llvm

The 85% attendance policy should be loosened.
Did not find the course as interesting as expected
LLVM assignments where interesting..
